REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: the prior art does not teach an ink jet recording method to form an image with the steps of (a) ejecting ink comprising an actinic radiation curable cationically polymerizable component from an ink jet recording head to deposit the ink on a non-ink absorptive recording medium; and (b) exposing the ink on the recording medium to an actinic radiation to cure the ink, wherein an absolute value of difference between a surface tension of the recording medium in mN/m and a surface tension of the ink after curing by exposure to the actinic radiation is 0 to 20 mN/m.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
